

A Ready-Made Brain and Eye Health Formula Your Customers Will Love

Foods rich in certain phytonutrients — namely anthocyanins, lutein, and astaxanthin — are known to have beneficial effects on cognition and vision. But most people don't get enough through diet alone to have an impact.

Introducing BrainBerry® Optiblend

Help your customers make up for what their diets are lacking, with BrainBerry® Optiblend. This innovative formula supports cognitive function and visual performance with three proprietary ingredients: BrainBerry® aronia berry, FloraGLO® lutein, and Astapure® astaxanthin.*

BrainBerry® Optiblend Benefits:

- Improved focus*
- Faster psychomotor speed*
- Increased mental flexibility*
- Better hand-eye coordination*
- Improved reaction time*
- Enhanced visual performance*
- Protection of the macula*
- Reduced eye strain*
- Prevention of eye fatigue*

What's Inside BrainBerry® Optiblend:

INGREDIENT

BENEFITS

BrainBerry® is an extract from fresh aronia berries grown on the icy plains of the Baltics.

Standardized to contain 15% cyanidin-3-O-galactoside, BrainBerry® is the only aronia extract clinically validated for brain fitness.*

- 43% improvement in focus*
- Increase in psychomotor speed, the ability to quickly coordinate mental and physical actions*
- 17% increase in mental flexibility, the ability to adapt thinking and actions to changing situations*
- Positive effects on eye-hand coordination and reaction time in gamers and professional basketball players*

FloraGLO® lutein is extracted from marigolds and is the most researched lutein brand in the world.

It was chosen by the U.S. National Eye Institute for use in the AREDS2 study, which examined the effects of nutritional supplementation on eye health.

- Enhanced visual performance in older adults*
- Protection of the macula of the eye from harmful blue light*
- Reduction of eye strain among people using screens*

Astapure® astaxanthin is derived from red *Haematococcus pluvialis* microalgae.

It's grown in an environmentally friendly closed cultivation system, where it is exposed to the natural sunlight of Israel's Arava desert.

- Antioxidant protection, which may prevent eye fatigue*
