

Beauty with a Twist

Mess-free, pre-measured, and travel-ready, twist-off softgels are redefining beauty delivery.

Uplevel your skincare, bath, body, and haircare products.

Soft Gel Technologies' twist-off softgels offer a sleek, sophisticated way to deliver topical beauty formulas—no tubes, jars, or droppers required. Simply twist, squeeze, and apply. Each single-use capsule protects product potency, reduces contamination risk, and delivers just the right dose. It's the ideal format for oils, serums, creams, and more.

Perfect for:

- Facial oils & serums
- Eye creams & wrinkle treatments
- Hair oils & scalp treatments
- Cuticle & nail oils
- Brightening or spot treatments
- Aromatherapy blends

Why beauty brands love twist-off softgels:

- Pre-measured doses for precision and consistency
- Mess-free and hygienic—no scooping, spills, or contamination
- Sleek, elegant format enhances product appeal
- Protects sensitive actives from oxygen and light
- Lightweight and portable—perfect for travel or tossing in a purse
- Compatible with oils, serums, creams, and more

ENJOY THE FREE SAMPLES! JUST:

1. Twist off the softgel cap
2. Squeeze the coconut oil into your hands
3. Hydrate on the go

SOFT GEL
TECHNOLOGIES, INC.

Why Softgel Technologies?

For more than 30 years, Softgel Technologies has focused exclusively on softgel manufacturing, setting the gold standard in this delivery form.

Unmatched Expertise: With 32 U.S. patents, we've pioneered advancements in bioavailability, dissolution, and nutrient stability, making our softgels truly stand out.

World-Class Manufacturing Facility: Our cGMP-certified facility in Los Angeles features precision blending and encapsulation equipment, enabling us to consistently produce softgels of unparalleled quality.

In-House Analytical Laboratory: Staffed by highly trained experts, our lab ensures the integrity of every softgel through rigorous testing at all stages—from raw materials to finished products.

Collaborative Support: More than a contract manufacturer, we assist with formulation development, sourcing premium ingredients, and providing real-time stability data to help your brand thrive.

Commitment to Transparency: We encourage regular customer audits to review batch records, certificates of analysis, and quality control test results, fostering trust in every partnership.
