

With You Every Step, From Concept to Capsule

You come with the idea. We'll turn it into reality.

For over 30 years, Soft Gel Technologies, Inc. (SGTI) has been the manufacturer of choice for custom and off-the-shelf soft gelatin capsules.

When you work with us, you get more than just a manufacturer. You get an expert partner who will assist you in every stage of developing your next softgel product — from concept and formulation to sourcing, manufacturing, packaging, regulatory support, and product launch. We attribute our success to an unwavering commitment to three core values.

1 QUALITY: Flawless capsules, every batch

Our state-of-the-art blending and encapsulation equipment enable us to consistently manufacture the finest softgels for our customers — no leaks, blisters, or clumping.

2 INNOVATION: We go where others don't dare

We specialize in softgel formulas others thought impossible, embracing ingredients that are difficult to absorb, tricky to encapsulate, or fragile to work with.

3 RELIABILITY: What you want, how you want it

You can count on us to help ensure your next product launch is seamless, successful, and on budget.

About Soft Gel Technologies

Who We Are

Established in 1994, SGTI is a full-service contract development and manufacturing organization (CDMO) specializing in creating complex softgel formulations that enhance bioavailability, improve stability, and dissolve fully.

What We Offer

SGTI offers a diverse line of stock products — including both bulk and clinically researched branded items — as well as turnkey custom formulations.

Where We Operate

Our corporate headquarters is in Los Angeles, California, where our state-of-the-art equipment, well-trained personnel, and exceptional customer service are at your disposal.

Our Global Roots

Backed by Kenko Corporation (Japan, est. 1965) and its global network of companies — including our sister company, Kenko International, Inc. (USA) — SGTI has access to high-quality functional ingredients from around the world.

SGTI at a Glance

- 30+ years of softgel manufacturing excellence
- Custom formulation and turnkey solutions
- Patented innovation
- Expertise with difficult-to-encapsulate ingredients
- Access to hard-to-find ingredients
- Global ingredient sourcing network
- U.S.-based manufacturing and customer service
- Reliable on-time delivery
- Flexible minimum order quantities
- Strong technical support
- Full transparency, readily sharing records, COAs, and QC results

Our Expertise

Softgel production is a unique and complicated process. One misstep and the soft gels can leak, crack, clump together, or fail dissolution and stability testing. Exclusively focused on softgels, SGTI has spent more than three decades setting the gold standard for softgel production.

Unrivaled Quality

WORLD-CLASS FACILITY

138,000 square feet of U.S.-based manufacturing with precision blending and encapsulation machinery

SOLVENT-FREE MANUFACTURING

Clean-label products, made without solvents

DEDICATION TO TRANSPARENCY

Customers welcome to audit our facility

Rigorous Testing

IN-HOUSE ANALYTICAL LABORATORY

Raw material to final product testing using HPLC, GC, and atomic absorption (AA)

HIGHLY TRAINED CHEMISTS AND TECHNICIANS

Technical excellence at every stage of production

THIRD-PARTY TESTING

Independent validation of product quality

Trusted Certifications

GMP-CERTIFIED

Meets stringent dietary supplement regulations

NSF CERTIFIED

Guarantees what's on the label is what's in the bottle

Proven Innovation

32 U.S. PATENTS

Breakthrough technologies in nutrient bioavailability, dissolution, and efficacy

Branded Product Portfolio

SGTI specializes in clinically supported, high-bioavailability formulations that stand apart from the crowd.

BrainBerry® Optiblend Softgels for Brain and Eye Health*

An innovative formula of BrainBerry aronia berry, FloraGLO® lutein, and Astapure® astaxanthin that improves cognitive function and enhances visual performance.*

CoQsol® Ubiquinone Softgels with Antioxidants for Enhanced Bioavailability

A synergistic, all-natural blend of CoQ₁₀ (ubiquinone), mixed carotenoids, vitamin E tocopherols, and rice bran oil clinically shown to increase CoQ₁₀ levels almost 3x higher than CoQ₁₀ powder.

CoQsol-CF® Ubiquinone Softgels with Crystal-free Technology for Maximum Bioavailability

A completely soluble, 100% crystal-free solution of CoQ₁₀ (ubiquinone), blended with d-Limonene and vitamin E tocopherols, demonstrated to enhance bioavailability even more than CoQsol — doubling CoQ₁₀ plasma levels after just 4 weeks of supplementation.

CoQH-CF® Ubiquinol Softgels with Crystal-free Technology for Superior Stability

Utilizes crystal-free technology to deliver a stable, solubilized form of Kaneka Ubiquinol, which protects ubiquinol from oxidizing and converting back to ubiquinone and has been shown to raise baseline ubiquinol levels by 5–8x in healthy younger adults.

CoQH-CF® with STGaia® Softgels for Metabolic Health*

A combination of our completely crystal-free CoQ₁₀ ingredient, CoQH-CF, and STGaia — an award-winning,[¥] palm-based phytonutrient extract — to address key drivers of metabolic health, from the heart to the brain to the cells.*

Injuv® Softgels for Skin, Joint, and Eye Health*

A clinically studied bioactive moisture complex — providing hyaluronic acid oligosaccharides and collagen and elastin peptides — that supports skin hydration and elasticity; joint and back comfort and mobility; and eye moisture and comfort.*

Injuv® with STGaia® Softgels for Healthy Aging*

A next-gen longevity combination, featuring Injuv bioactive moisture complex plus STGaia — an award-winning[¥], palm-based phytonutrient extract providing squalene and tocotrienols — to address both visible and non-visible signs of aging.*

Femalgen™ Softgels for Urinary and Bladder Health*

Features Go-Less™ (water-soluble pumpkin seed extract + soy germ isoflavone extract) — clinically studied to support healthy bladder control, normal nighttime urinary frequency, and sleep satisfaction in both men and women.*

GlucoHelp™ Softgels for Healthy Blood Sugar Levels*

Delivers banaba leaf extract standardized to 18% corosolic acid, shown in two clinical studies to support healthy fasting and post-prandial blood glucose levels, by directing GLUT4, a glucose transporter protein, to incorporate glucose into the cell.*

[¥] Winner of NUTRAIngredients Asia 2025's award for Ingredient of the Year in the Healthy Aging category.

Branded Product Portfolio

continued

NattoGold Softgels for Cardiovascular Support*

A plant-based nattokinase supplement featuring NSK-SD® — the most researched nattokinase ingredient — delivering consistent potency (1,000 FU of nattokinase activity) in every softgel to help maintain blood pressure levels already within normal range.*

Plant Omega Softgels for Heart and Brain Health*

A vegan, microalgae-based alternative to fish oil — providing 300 mg EPA + 200 mg DHA per plant-based softgel — with exceptional freshness, superior stability (2.75x better than standard algal oil), guaranteed purity, and clean taste.

Smart PS™ Softgels for Cognitive Performance*

Delivers all the cognitive benefits of phosphatidylserine (PS) — such as supporting memory, attention, concentration, and word recall — without the degradation issues plaguing standard PS, retaining 100% of its potency at 24 months.*

VeneCalm™ Softgels for Daytime Calm and Nighttime Sleep*

A unique formula combining Venetron® rafuma extract, Shoden® ashwagandha extract, and CBD (cannabidiol, THC not detected) to help manage occasional stress and anxiety, reduce cortisol levels, and enhance concentration, as well as support healthy sleep.*

Youth Bloom™ Oil Pearls

A skin-loving combination of bakuchiol oil, a plant-derived alternative to retinol, and STGaia, an award-winning[†], palm-based phytonutrient extract providing squalene and tocotrienols, for visibly younger, radiant skin — delivered in convenient twist-off softgels for easy topical application.

* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

[†] Winner of NUTRAIngredients Asia 2025's award for Ingredient of the Year in the Healthy Aging category.

CA-CC00975A	CoQH-CF® 100 mg	10 Oval Caramel	8/M
CA-CC00976A	CoQH-CF® 100 mg with STGaia®	10 Oval Caramel	5/M

Advantages of Softgels

- **Concentrated:** Provide therapeutic dosages of ingredients
- **Protected:** Hermetically sealed against oxidation, moisture, microbial contamination, and tampering
- **Easy to Swallow:** Won't get stuck in the throat the way tablets and even capsules can
- **Attractive:** Available in a wide variety of shell colors, shapes, and sizes
- **Bioavailable:** Significantly improve the bioavailability of oil-based active ingredients
- **Versatile:** Accommodate a wide variety of fills: semi-solid, liquid, gel, paste, emulsion, or micro-encapsulation
- **Topical Solutions:** Twist-off softgels available for topical beauty formulas: just twist, squeeze, and apply

Contract Packaging and Private Labeling

We can help you create the perfect bottling solution for your nutraceutical product, thereby ensuring the quality of your softgels from storage to usage. Whether you specify plastic or glass bottles, blister packs, or cartons, we have the resources to help you fulfill your packaging needs.

HDPE and PET Bottles

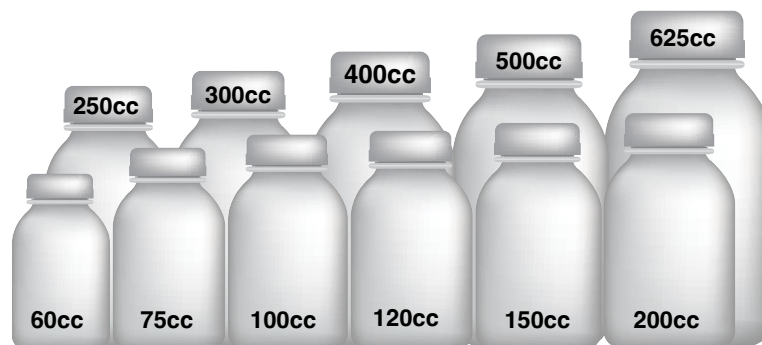

HDPE (High Density Polyethylene) and PET (Polyethylene Terephthalate) can be extruded or molded into plastic bottles and containers, which are available in different sizes to accommodate various softgel sizes and counts. Post-consumer recycled plastic can be specified, as well as safety seals, neck bands, and child-resistant caps, to complete your turnkey order.

What Our Partners Say

"Soft Gel Technologies has been an absolute pleasure to work with. Their quick, effective communication has helped us navigate quality issues and jump through hurdles to keep us in a healthy inventory position."

— Manager of Contract Manufacturing, Global Health Science Company

"We've had the pleasure of working with Soft Gel Technologies on several projects and have consistently been impressed with their professionalism, technical expertise, and commitment to quality. Their team is responsive, collaborative, and willing to work through complex formulation and manufacturing challenges to help deliver the best possible outcome."

— Chief Operating Officer, Healthcare Practitioner Supplement Brand
